**RESOURCE ENROLLMENT FORM**

Over the past several months we have received numerous inquiries from people looking for a particular service provider, answer to a question, or where to locate a specific item all concerning accessibility issues. Many of these calls have been from owners or contractors who are located out-of-state and are unfamiliar with our Texas Accessibility Standards design, review and inspection process. In an effort to assist these people identify professionals in the area such as yourself; we are going to add a resource list to our Website that we can direct these people to for assistance. If you are interested in having your name or firm included, at no cost, then simply complete the bottom half of this form and return it to us. Our target is to have all responses recorded and available before the end of January of 2005.
